Professional Summary

Frontend Developer and AI Model Response Evaluator with hands-on experience building responsive web applications using React.js, Next.js, TypeScript, and Tailwind CSS. Proven track record in AI evaluation, prompt engineering, benchmark task authoring, and data annotation. Passionate about crafting performant, user-focused interfaces and continuously expanding full-stack capabilities.

Technical Skills

Languages & Markup: HTML5, CSS3, JavaScript (ES6+), TypeScript, Python
Frameworks & Libraries: React.js, Next.js, Tailwind CSS
AI / Data: AI Evaluation, Prompt Engineering, Benchmark Task Design, Data Annotation, Text Classification, Sentiment Analysis
Tools: Git, GitHub, Adobe Premiere Pro, Vercel
Languages: Hindi (Native), English (Fluent)

Professional Experience

Benchmark Task Engineer — LLM Training **2025 – Present**
Freelance Contract *Remote*

- Authored software-engineering benchmark tasks (terminal-based coding challenges) used to train and evaluate large language models.
- Designed graders and verifiers to objectively score model-generated solutions, and calibrated task difficulty through mutation testing.
- Brought each task through multi-stage quality gates covering correctness, fairness, and non-triviality before release.

AI Model Response Evaluator **2025 – Present**
Remote Contract *Remote*

- Evaluated and scored AI-generated responses to improve model accuracy, relevance, and tone across diverse prompts.
- Performed multilingual data annotation and text classification tasks supporting LLM training pipelines.
- Engineered and refined prompts for large language models (LLMs) to optimize output quality.
- Contributed to measurable improvements in response quality and end-user experience metrics.

Freelance Web Developer & Video Editor **2024 – Present**
Self-Employed *Remote*

- Designed and developed 3+ responsive web pages using HTML, CSS, and JavaScript with a focus on UI/UX and performance.
- Built and deployed conversion-focused landing pages, including projects hosted on Vercel and GitHub Pages.
- Edited 10+ educational and promotional videos using Adobe Premiere Pro for clients and personal projects.
- Managed multiple concurrent projects independently, consistently delivering on time.

Projects

Personal Portfolio | Next.js, TypeScript, Tailwind CSS, Framer Motion | Live · Code **2026**

- Built a fully responsive personal portfolio with Next.js 16 (App Router), TypeScript, and Tailwind CSS v4, featuring a 3D cursor-interactive UI and Framer Motion animation.
- Implemented a serverless contact form (Resend API) and a GitHub → Vercel CI/CD pipeline for automatic deployment on every push.

LeetCode → GitHub Sync | JavaScript, Chrome Extension API, GitHub API | Code **2025**

- Built a Chrome extension that detects Accepted LeetCode submissions in-browser and automatically commits the solution to a configured GitHub repository via the GitHub API — removing manual copy-paste.

Video Editing Portfolio | HTML, CSS | Live · Code **2024**

- Designed a dedicated portfolio page to showcase video editing work using HTML and CSS.

Additional

Chess: Rated 1300 on Chess.com; mentored beginner-level players for competitive improvement.
Competitive Programming: Active on LeetCode and Codeforces; regularly practicing DSA and problem solving.
Location: Moradabad, Uttar Pradesh, India
