PROFESSIONAL SUMMARY

Frontend Developer and AI Model Response Evaluator with hands-on experience building responsive web applications using React.js, Next.js, TypeScript, and Tailwind CSS. Proven track record in AI evaluation, prompt engineering, and data annotation. Passionate about crafting performant, user-focused interfaces and continuously expanding full-stack capabilities.

TECHNICAL SKILLS

Languages & Markup: HTML5, CSS3, JavaScript (ES6+), TypeScript, Python

Frameworks & Libraries: React.js, Next.js, Tailwind CSS

AI / Data: AI Evaluation, Prompt Engineering, Data Annotation, Text Classification, Sentiment Analysis

Tools: Git, GitHub, Adobe Premiere Pro, Vercel

Languages: Hindi (Native), English (Fluent)

PROFESSIONAL EXPERIENCE

Freelance Web Developer & Video Editor 2024 – Present
Self-Employed Remote

- Designed and developed 3+ responsive web pages using HTML, CSS, and JavaScript with a focus on UI/UX and performance.
- Built and deployed conversion-focused landing pages, including projects hosted on Vercel and GitHub Pages.
- Edited 10+ educational and promotional videos using Adobe Premiere Pro for clients and personal projects.
- Managed multiple concurrent projects independently, consistently delivering on time.

AI Model Response Evaluator 2025 – Present
Remote Contract Remote

- Evaluated and scored AI-generated responses to improve model accuracy, relevance, and tone across diverse prompts.
- Performed multilingual data annotation and text classification tasks supporting LLM training pipelines.
- Engineered and refined prompts for large language models (LLMs) to optimize output quality.
- Contributed to measurable improvements in response quality and end-user experience metrics.

PROJECTS

Personal Portfolio | *Next.js, TypeScript, Tailwind CSS, Vercel* | 🌐 Live 💻 Code 2025

- Built a fully responsive personal portfolio using Next.js 14 and TypeScript, deployed on Vercel.
- Implemented modern UI patterns with Tailwind CSS and shaden/ui component library for a polished, professional look.

Personal Website v1 | *HTML, CSS* | 🌐 Live 💻 Code 2024

- Developed a custom-styled personal website from scratch using pure HTML and CSS, with custom fonts and creative layout.
- Deployed via GitHub Pages; demonstrates strong foundational CSS design skills.

Capstron Project | *HTML, CSS* | 🌐 Live 💻 Code 2024

- Built a visually rich, CSS-heavy image gallery and landing page with custom animations and responsive layouts.
- Showcases advanced CSS styling, image management, and GitHub Pages deployment workflow.

Video Editing Portfolio | *HTML, CSS* | 💻 Code 2024

- Designed a dedicated portfolio page to showcase video editing work using HTML and CSS.
